

job name:
 type:

sq.air™ LED spec sheet

material

housing

brake formed and welded aluminum.

diffuser

.125" virgin gloss white acrylic panels.

optics

reflector

.050 aluminum painted high reflectance powder coat matte white.

lamp lens

.125" P95 frost acrylic lens.

efficiency

constant current driver operates LED consistently, regulating the current flow through it to produce the most consistent light output and efficiency. constant current driver protects LEDs from voltage fluctuations in the building power system, eliminating stress from over voltage, inrush surges, and flicker from voltage fluctuations, assuring long service life.

LED

custom LED board in 3000K, 3500K, or 4000K (80 cri). under normal operating conditions, the LEDs employed are rated for >36,000hrs L70 (6.8K) per IES TM-21 from LM-80 test data, and 71,000hrs L70 projected life. white power cord is standard with other color options listed below.

driver

Roal Strato series, class 2 power unit, built-in active PFC function, universal input (120-277 vac), 10% minimum dimming level, PF >80, protections include short circuit, over current, over voltage and over temperature. wired for 0-10v dimming from factory.

mounting

5"dia. spun steel canopy in satin white. four point vertical suspension of 12 ft long stainless steel cables attach to trim with field adjustable grippers that allow for exact AFF mounting heights.

emergency

emergency not available. if required, recommend use of inverter (by other).
